

**Confirmation**

Your claim has been accepted.  
Your confirmation number is: **5354774**.

**WARNING!**

**Do not press the "back" button or your claim could be lost!**

If you made an error during the application process, contact the Call Center via email or by telephone 48 business hours from the date you applied. Please do not attempt to re-file your claim over the internet to correct an error or omission—this may create a delay on your claim being processed.

If you have filed a new application for UI benefits, you must review all information that will be mailed to you and take action as requested on the forms.

The agency is asking for your comments concerning your online claim filing experience. Click the "Continue" button below to complete an optional customer satisfaction survey. After you complete the survey (if you choose to do so), you will be able to access the AZUI.com web site where you can review the weekly claim filing requirements and find other important information about the Unemployment Benefit process.

**Remember:** The next step in the application process is to file your weekly claim for this current week. You may do so this **coming Sunday** or on any day of the week days after that. The weekly claim filing system closes at 6PM MST on Friday and opens again at 12:00AM MST on Sunday.
